

§ 1135.61

7 CFR Ch. X (1–1–01 Edition)

step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(i) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

[64 FR 48015, Sept. 1, 1999, as amended at 65 FR 82841, Dec. 28, 2000]

§ 1135.61 Computation of producer butterfat price and producer price differential.

For each month, the market administrator shall compute a producer butterfat price per pound of butterfat and a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to §1135.71 for the preceding month shall not be included in these computations, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer butterfat price and the producer price differential in the following manner:

(a) *Producer butterfat price.* The producer butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by:

(1) Multiplying the pounds of butterfat in producer milk allocated to each class pursuant to §1000.44(b) by the respective class butterfat prices;

(2) Adding the butterfat value calculated in §1135.60(h) for other source milk allocated to Class I pursuant to §1000.43(d) and the steps of §1000.44(b) that correspond to §1000.44(a)(3)(i) and §1000.44(a)(8) by the Class I price; and

(3) Dividing the sum of paragraphs (a)(1) and (a)(2) of this section by the sum of the pounds of butterfat in producer milk and other source milk used to calculate the values in paragraphs (a)(1) and (a)(2) of this section.

(b) *Producer price differential.* (1) Combine into one total the values computed pursuant to §1135.60 for all handlers required to file reports prescribed in §1135.30;

(2) Subtract the total of the values obtained:

(i) By multiplying the total pounds of protein, other solids, and butterfat contained in each handler's producer milk for which an obligation was computed pursuant to §1135.60(a) through (g) and §1135.60(i) by the protein price, other solids price, and producer butterfat price, respectively;

(ii) By multiplying each handler's pounds of skim milk and butterfat for which a value is computed pursuant to §1135.60(h) by the Class III skim milk price and the producer butterfat price, respectively;

(3) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1135.75;

(4) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to §1135.60(h); and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The result shall be known as the *producer price differential* for the month.

[65 FR 82841, Dec. 28, 2000]

§ 1135.62 Announcement of producer prices.

On or before the 12th day after the end of each month, the market administrator shall announce publicly the following prices and information:

(a) The producer price differential;

(b) The protein price;

Agricultural Marketing Service, USDA

§ 1135.73

(c) The nonfat solids price;
(d) The other solids price;
(e) The producer butterfat price;
(f) [Reserved]
(g) The statistical uniform price computed by adding the following values:

(1) The Class III skim milk price computed in §1000.50(i) multiplied by .965;

(2) The producer butterfat price computed in §1135.61(a) multiplied by 3.5; and

(3) The producer price differential computed in §1135.61(b).

(h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

[64 FR 48015, Sept. 1, 1999, as amended at 65 FR 82842, Dec. 28, 2000]

PAYMENTS FOR MILK

§ 1135.70 Producer-settlement fund.

See § 1000.70.

§ 1135.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 14th day after the end of the month (except as provided in §1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to §1135.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to §1000.44(c) by the producer price differential as adjusted pursuant to §1135.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and producer butterfat prices respectively;

(3) An amount obtained by multiplying the hundredweight, the pounds

of skim milk, and the pounds of butterfat for which a value was computed pursuant to §1135.60(h) by the producer price differential, the Class III skim milk price, and the producer butterfat price, respectively, as adjusted pursuant to §1135.75 applicable at the location of the plant from which received; and

(4) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to §1135.60(h) by the producer price differential as adjusted pursuant to §1135.75 for the location of the plant from which received.

[64 FR 48015, Sept. 1, 1999, as amended at 65 FR 82842, Dec. 28, 2000]

§ 1135.72 Payments from the producer-settlement fund.

No later than the 15th day after the end of each month (except as provided in §1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1135.71(b) exceeds the amount computed pursuant to §1135.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1135.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) *Partial payment.* On or before the 25th day of each month (except as provided in §1000.90) to each producer an amount not less than 1.2 times the lowest class price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized in writing by such producer to be made from payments due pursuant to this paragraph.

(2) *Final payment.* On or before the 17th day of the following month (except as provided in §1000.90), not less than

§ 1135.73

7 CFR Ch. X (1-1-01 Edition)

an amount computed by the sum of the following:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to §1135.75;

(ii) The pounds of butterfat in producer milk received times the producer butterfat price for the month;

(iii) The pounds of protein in producer milk received times the protein price for the month;

(iv) The pounds of other solids in producer milk received times the other solids price for the month;

(v) [Reserved]

(vi) Less any payments made pursuant to paragraph (a)(1) of this section;

(vii) Less proper deductions authorized in writing by such producer and plus or minus adjustments for errors in previous payments to such producer subject to approval by the market administrator; and

(viii) Less deductions made for marketing service pursuant to §1000.86.

(b) One day prior to the dates on which partial and final payments are due pursuant to paragraph (a) of this section, each handler shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be an amount not less than 1.2 times the lowest class price for the preceding month multiplied by the hundredweight of milk.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class

prices available at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For the total quantity of bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be at not less than the total value of such products received from the association's pool plants, as determined by multiplying the respective quantities assigned to each class under §1000.44, as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I prices to be used shall be the prices effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the respective butterfat prices for the month;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price; and

(viii) Add together the amounts computed in paragraphs (b)(3)(i) through (vii) of this section and from that sum deduct any payment made pursuant to paragraph (b)(1) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.
